WEBSITE DESIGN CONCEPTS · OCTOBER 2026

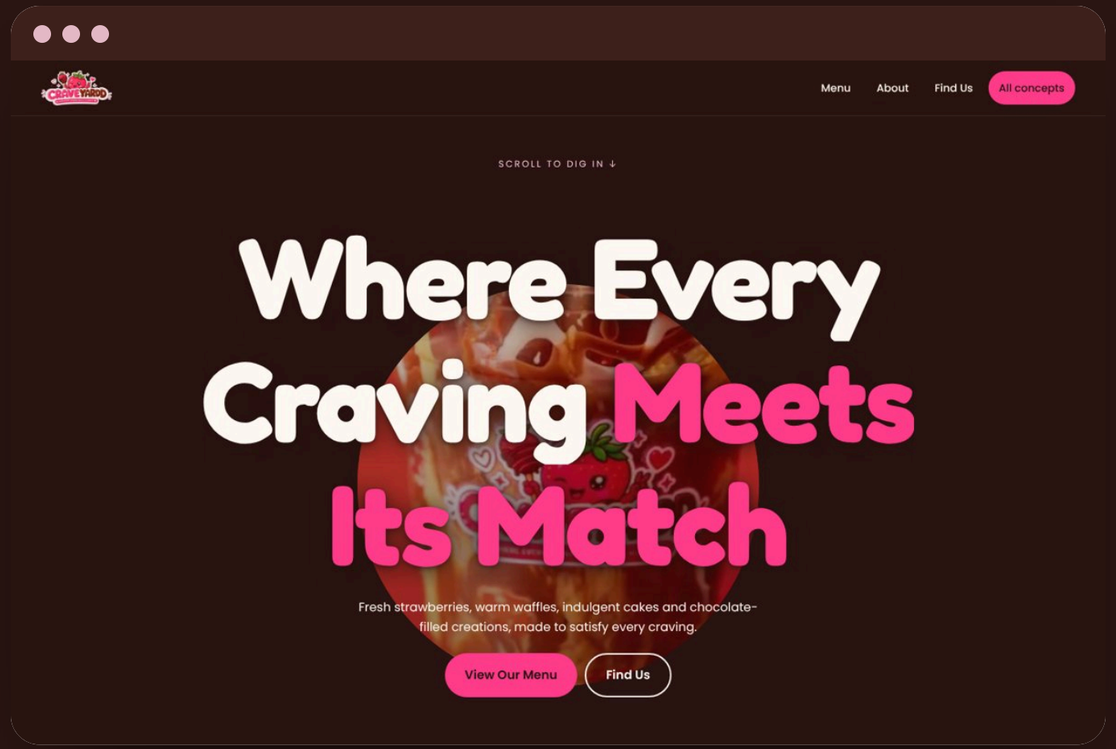

Five ways to serve CraveYardd online

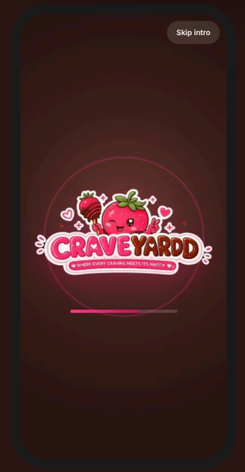

Five design directions for the CraveYardd website. Each one uses the same real menu, prices and photos, so you can compare the look and feel side by side.

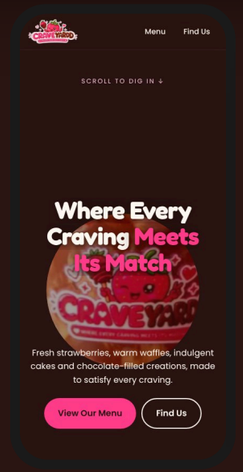

1. **Chocolate Drip** – cinematic & scroll-led
2. **Candy Pop** – light & playful
3. **Scroll Sundae** – chocolate & cream motion
4. **Sweet Blocks** – bright & easy to use
5. **Ultimate Craving** – the best of everything

CraveYardd at Oba's Kitchen, Lounge & Bar · Bristol Road, Selly Oak, Birmingham · Open daily 2:00 PM–11:00 PM

Concept 01

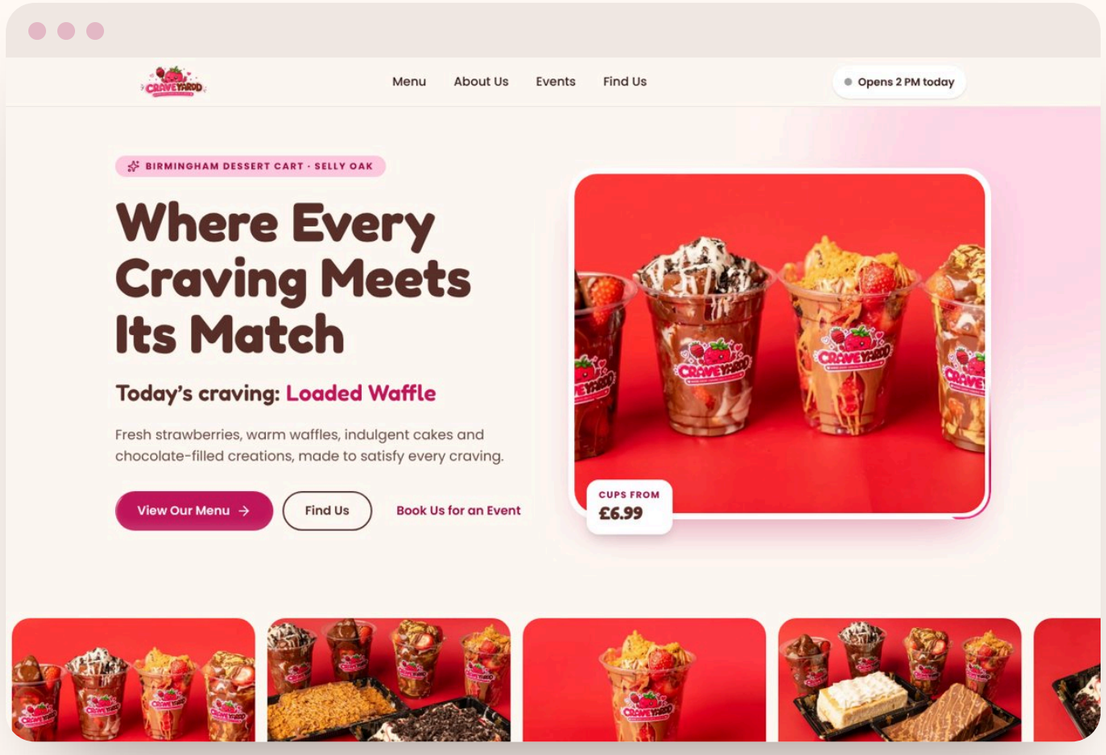

Chocolate Drip

Built with GSAP

A dark, cinematic, scroll-led story. The cup photo opens from a circle to full screen, the cups glide past sideways and toppings fall like sprinkles.

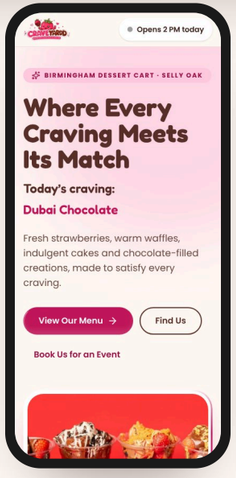

- Full-screen photo reveal as you scroll
- Sideways ride through the four strawberry cups
- Chocolate lines draw under each waffle
- About text lights up word by word

Desktop view above, phone views below. Every concept includes the logo intro, full menu with prices, event enquiries and Find Us map.

Concept 02

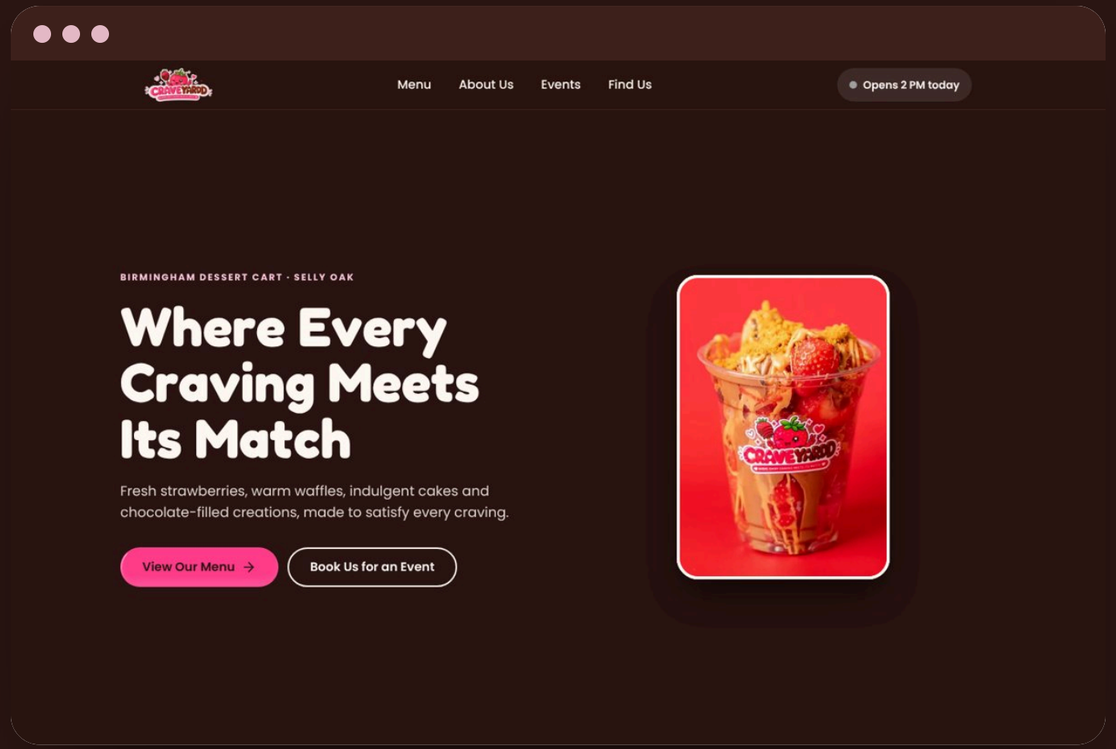

Candy Pop

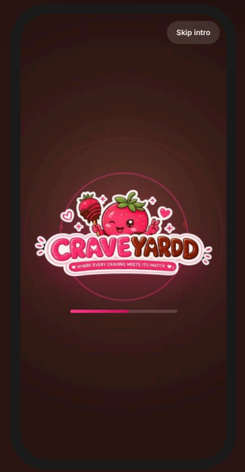

Built with 21st.dev components

Light, sweet and playful. An animated headline, rotating "Today's craving" names, shimmer buttons and a glowing frame around the hero photo.

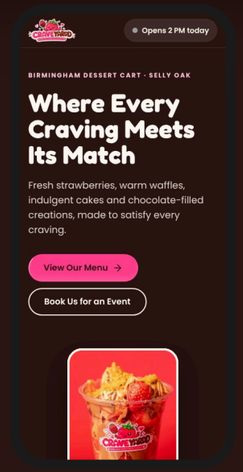

- Glowing frame around the hero photo
- Bento grid of the most-craved desserts
- Endless photo strip
- Spotlight card for event bookings

Desktop view above, phone views below. Every concept includes the logo intro, full menu with prices, event enquiries and Find Us map.

Concept 03

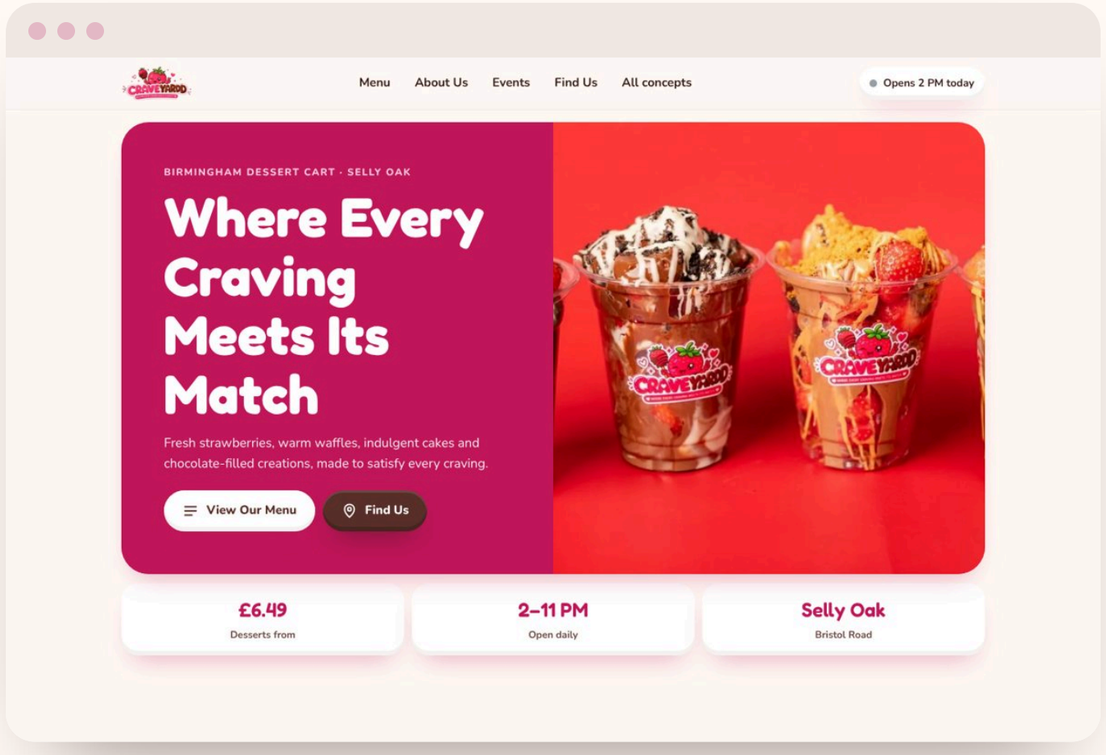

Scroll Sundae

GSAP + 21st.dev

Chocolate and cream. A stack of cups fans out as you scroll, product names scroll past on a hot-pink band, and chocolate colour fills the About text.

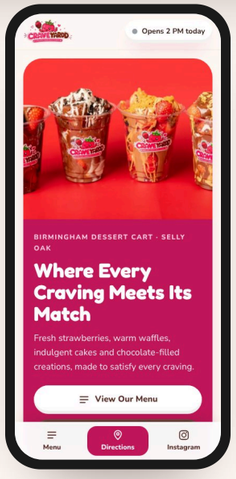

- Cups fan out on scroll
- Menu glides sideways on desktop
- Sliding gallery of favourites
- Magnetic “Request a Quote” button

Desktop view above, phone views below. Every concept includes the logo intro, full menu with prices, event enquiries and Find Us map.

Concept 04

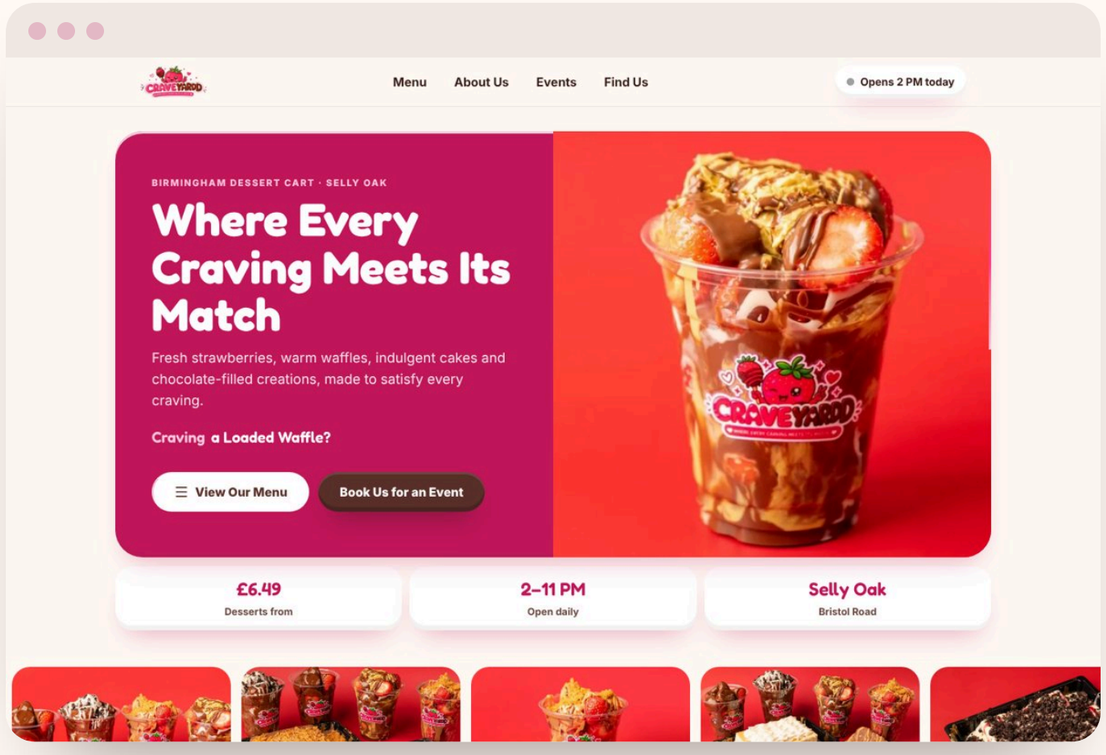

Sweet Blocks

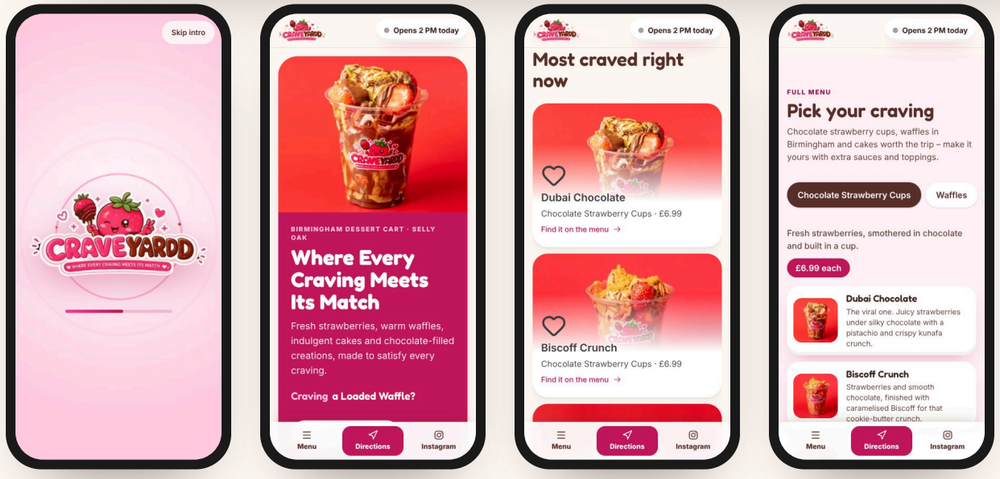

Guided by UI UX Pro Max

Bright, soft and easy to use. Built around getting people through the door, with clear blocks, opening hours always visible and directions one tap away.

- Live “Open now” badge in UK time
- Tappable menu tabs
- Menu, Directions and Instagram bar always in thumb reach
- Map with one-tap directions

Desktop view above, phone views below. Every concept includes the logo intro, full menu with prices, event enquiries and Find Us map.

Concept 05

Ultimate Craving

GSAP + 21st.dev + UI UX Pro Max

The best of everything: Sweet Blocks' easy layout, 21st.dev's playful details and GSAP's smooth scroll motion, all in one.

- Glowing hero card with rotating craving
- Photo strip and bento favourites
- Tabs menu with every price
- Spotlight event block with magnetic quote button

Desktop view above, phone views below. Every concept includes the logo intro, full menu with prices, event enquiries and Find Us map.

NEXT STEP

Which one makes you crave it?

Pick a favourite, or mix the parts you like from different concepts. The chosen design becomes the live CraveYardd website, with the full menu, event enquiries and Find Us map ready to go.

Logo intro
Every visit opens with the CraveYardd logo popping in with hearts and sparkles.

Built for phones first
Large tap targets and fast-loading photos, made for visitors arriving from Instagram and TikTok.

Real menu & prices
Cups £6.99, waffles £6.49, cakes & desserts from £6.99, extras 50p. Easy to update later.

Bookings & directions
Event enquiry form, Google Map and one-tap directions to Bristol Road, Selly Oak.

Accessible
Readable colour contrast, keyboard friendly, and calmer motion for people who prefer it.
